- Technical School Čačak
 - High School Diploma – Electrical Technician for Power Engineering
- Undergraduate Studies in Computer Engineering, ETF Čačak (incomplete)

Languages

- English: Advanced (Fluent)
- Serbian: Native

Technical skills

- *Backend*: PHP (12+ yrs), Symfony (4 yrs), API Platform (3 yrs), Laravel (<1 yrs), MySQL/SQL (12+ yrs)
- *DevOps*: Docker, Jenkins, GitHub, AWS, Redis, Varnish
- *System administration*: Linux/Windows (12+ yrs), MikroTik, VPNs, Network Infrastructure, Asterisk
- *Web*: HTML, CSS, JavaScript, jQuery, Ajax
- *Other*: Power BI, .NET, Data Mining, REST APIs

Projects

- HockeyBundesliga (Multi-Domain Web Application & Federation Management Tool)
 - Contributed as a key backend developer (under NDA) to a unified admin platform serving multiple sports federations.
- PSFashion (ERP-Integrated B2B & Internal Tools)
 - Fully digitalized non-ERP business processes using Yii and Yii2 (LAMP stack)
 - Delivered a comprehensive ERP-integrated B2B system for franchises and wholesale buyers
 - Built an internal task-based communication tool (mini-CRM) for assignments, deadlines, comments
 - Deployed and managed IP telephony (Asterisk): 50+ extensions across 15+ remote locations in 2 countries
- BrazilBet (Internal Betting & Monitoring Toolset)
 - Developed an internal backend system featuring payment tracking, internet quota management, risk processing, and notification workflows.
- Transport Logistics System
 - Implemented a transport order management system with execution tracking, vehicle database control, real-time status monitoring, route optimization, driver scheduling, and report generation on route completion and vehicle utilization.
- School Management Application
 - Created a management system for a private language school—tracking students, groups, payments, class schedules, teacher records, and lessons.
- Production Process Management System
 - Designed a production order tracking application for PE, PP, and paperboard packaging: managed work orders, monitored inventory of raw materials and finished goods, and handled invoicing and customer financial monitoring.

Personal Traits & Soft Skills

- Quick learner
- Proactive problem solver
- Team player with leadership experience
- Adaptable, creative and responsible
- Skilled in negotiation and team coordination
